

K-LOVE is almost always on in our kitchen. In the car, or office at home, and sometimes at work, I listen to K-LOVE. It's our favorite station. I support it, and I don't know what I would do without it. With K-LOVE, I have great music all the time, no commercials, but encouraging one minute "speeches", which are great. I tell others about K-LOVE, so that they can have happier lives, and more full of peace. It has a great positive impact on the community, and I don't know what would be without it. If everyone listed to K-LOVE, there would be happier people, less anger and more love shown to each other. Therefore I definitely think that it's in the public's interest to keep K-LOVE the way it is.

Thank you,

Delia and Allen Micu
